The term Timekeeper refers to anyone who does billable work for a client. 4. Click **Save**
5. If the timekeeper is a practicing attorney, a Roles screen displays. Do not change the default settings - click **Save**

Timekeeper Rates

Your client may enter the agreed upon rates for each timekeeper in Counsellink or request that you enter the rates and submit them for review and approval.

Client Enters Rates

If your client has had a fee structure configured so they enter rates, no 'Add Fee Offer' button will display to you. The client will enter rates and no action will be required by you in this section. You have completed the registration requirements for your client. Once your client completes this step, matters can be assigned to your Counsellink account and invoicing can begin.

Law Firm Enters Rates

If your client has requested that you enter rates for your timekeepers, LexisNexis must assign your law firm to your client in Counsellink before you can complete this step. To expedite this process, you may contact Attorney Implementation at attorneyimplementation@lexisnexis.com.

Once LexisNexis has completed the assignment, log into Counsellink to enter the timekeeper rates:

1. Confirm that your client's name displays in the upper left corner of your CounselLink Home page. If not, select the client from the drop-down list.

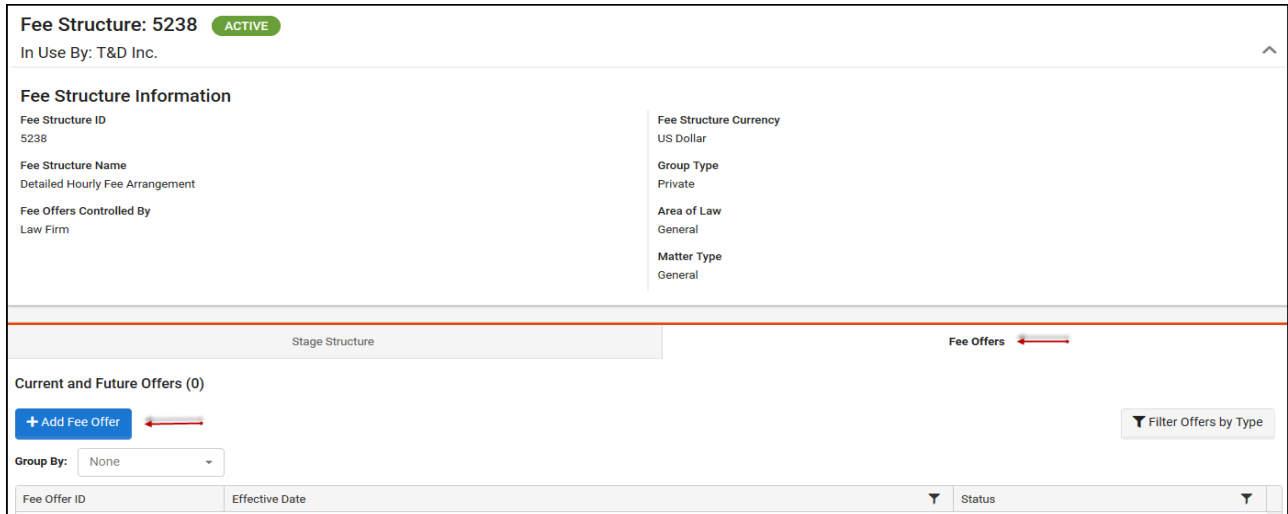

2. Click the **Fees** tab. In the top right corner, confirm the **Fee Structures** view is selected.

4. Click the **Fee Structure ID** link. The Fee Structure Overview page displays.

5. Select the **Fee Offers** tab

6. Click the **Add Fee Offer** button. The **Create Fee Offer** screen displays.
7. **Effective Date:** Leave the default date set to the current date.
8. **Fee Offer Currency:** Select if different from the default value.
9. **Offered Counties:** Leave the default state and counties of **N/A - N/A**.
10. **Stage Structure:** Enter rates in each of the three Offered Amount boxes for **Partner Rate**, **Associate Rate**, and **Paralegal Rate**.
11. **Timekeepers:** Enter the timekeeper's hourly rate in the Rate box for each individual timekeeper that will be billing for this client's matters. Note: If a listed timekeeper will not bill this client, leave their box blank. **Do not enter \$0.**

12. Click **Save**, then **OK**. The fee offer will show a 'Pending Approval' status. Counsellink notifies your client that your rates are ready for their review.

- **Discount Terms:** On the Edit Discount Terms screen, enter the discount terms as a percentage of Fees, Expenses or both, then click **Save**

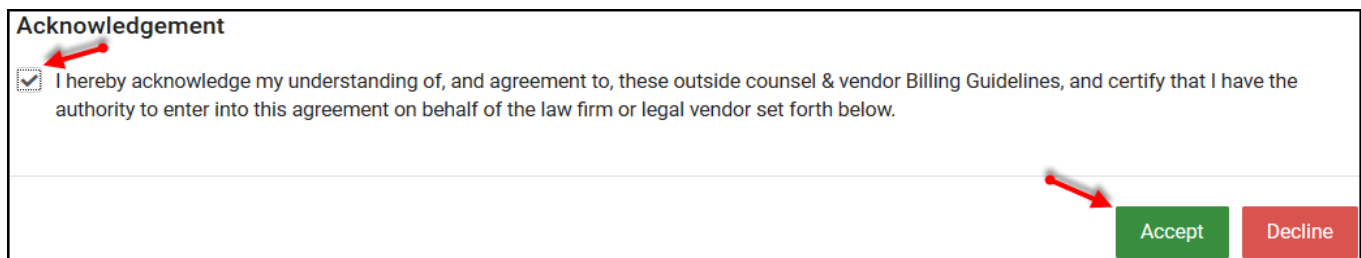

Billing Guidelines Acknowledgement

Your client may require that you acknowledge their billing guidelines online. To access the guidelines:

Matter Assignments

Once rates have been entered and approved, your client will assign matters to you. The matter must be accepted before invoices can be submitted. Some clients configure CounselLink to automatically complete the matter acceptance step, while others require the law firm to manually accept the assignment. An email notification with instructions is sent to the law firm each time new matters are assigned. Follow the instructions in the email.

Client Configures Automatic Matter Acceptance

If your client configured CounselLink to automatically complete the matter acceptance step on behalf of law firms, no action is required in this section. Once you receive notification that a matter has been assigned, you can access it from the CounselLink Home page.

Invoice Processing

Your client uses CounselLink to receive and process all legal invoices. All invoices must be submitted through CounselLink. **Invoices received for matters that have not been assigned through CounselLink will be rejected.**

Note: Detailed instructions for submitting invoices, troubleshooting rejected invoices, and many other topics are available from the **Help (?)** link located in the upper right corner of every screen.

Preferred Invoice Submission Method

To secure prompt and accurate payments to your firm, upload invoices using the structured data (LEDES) format. This is the preferred invoice submission method. CounselLink also accepts invoices submitted by mail, email, and those created directly in CounselLink.

Upload a Structured Data (LEDES) File to CounselLink

1. Export the invoice from your time and billing software to the LEDES (ASCII) structured data format. **Examples LEDES 1998B, 1998BI, 2000 and XML 2.1**
2. From the Billing section of the CounselLink Home page, click the **+ Import Invoice** button.
3. You can upload one or more invoice files at once.
 - a. In the Invoice Files section, click the **Choose File** button to the right of the File 1 label.
 - b. Browse to locate the saved LEDES invoice file and select it.
 - c. Click **Open**.
 - d. Repeat the file selection process for each additional invoice. If you need to attach more than 5 files, click the **Add Another File** button.
 - e. Complete any other necessary information on the Import Invoice page.
 - f. Once you have specified all your invoices, click **Next**.

4. If data errors are found, the Import Invoice Status screen appears.
 - a. To see all errors, click **View Status Report**. Read the error messages. For more information, click the message number link. Click **Close** to return.
 - b. To remove an invoice from the upload process due to errors, click the check box near the invoice number and click **Delete**.
 - c. To continue with the upload process, click **Continue**.

5. Confirm or change the **Invoice Currency**. CounselLink will provide the Exchange Rate.
6. Confirm or change the **Fee Tax** and **Expense Tax**.
7. Click **Continue** when all data appears correct.
8. If your client requires additional information on invoices, click the check box near the invoice number, and then click **Add Additional Information**. Fill out the fields on the page. For questions on this data, please contact the client.
9. To provide a document with the invoices such as a receipt, click the check box near the invoice number, and click **Document Attach**.
 - a. Click **Browse** to locate your document.
 - b. Type a **Document Name**.
 - c. If you need to attach more documents, click the **Attach Another Document** button.
 - d. Click **Submit**.
10. At the Final Review page, click **Send** to make the invoice available to the client. The Import Invoice – Confirmation information displays. Review the confirmation page.
11. Click **Done** to finish the invoice upload process.

Note: After upload, CounselLink checks the invoice against the client's billing guidelines. The individual who uploads the invoice will receive a status email regarding the guideline review. This email indicates the number of invoices sent to the client or held. It will also indicate if any billing guideline errors were found or if the client requires additional information. If guideline errors were identified, your invoice will be rejected. You can access the invoice from the **Rejected by Billing Guidelines Review** link on the Home page. Fix the errors and submit the invoice again.

Alternate Invoice Submission Methods

If you are not able to upload a structured data (LEDES) file, use one of these alternate methods to submit your invoices to CounselLink.

Email Invoice

Create invoices in any of the following formats: .pdf, .doc, .txt, and .xls. Invoices must include the following information:

- Service provider name and address
- Client Name
- Corporate Customer Matter ID and Title
- Invoice date
- Unique invoice number
- Text in English
- Fee, disbursement, and invoice total amounts
- Tax and discount amounts separate from fee and disbursement totals, if applicable
- Currency type
- A date for each fee or expense charge
- A complete charge description
- For hourly billing:
 - Use tenth of an hour time increment (e.g., .10, .20, .30, etc.)
 - Include timekeeper IDs and timekeeper rates or cost associated with each charge.
 - Timekeeper summary listing the names, timekeeper IDs, hourly rates and total hours billed by each timekeeper.

Email the invoices to CounselLink for processing. Invoices should be sent as an attachment (6 MB maximum file size) to counsellinkinvoices@lexisnexis.com.

Multiple invoices may be attached to one email but include **only one invoice per file attachment**. Please include any backup documentation (e.g., receipts) at the end of the invoice file and not as a separate file attachment. Do not send balance statements or any other non-invoice documents. Do not send blurry or out-of-focus invoices.

Once the invoice is received, a verification email will be sent out that includes a confirmation number for each invoice attachment. This confirmation number should be retained for tracking purposes.

Note: Invoices that do not meet minimum CounselLink requirements will be rejected and returned to your law firm. An email message is sent to the person who submitted the invoice email as well as individuals in the Accounts Receivable role at the law firm office. The message will contain the reason for the rejection and the actions needed to correct the problems. After fixing the issues, submit the corrected invoice.

Mail Paper Invoice

You can mail an original copy of an invoice on white paper to CounselLink. A separate invoice must be submitted for each matter. Mailed invoices must contain all the same matter, invoice, and charge level data listed in the Email Invoice section above.

Mail the paper invoices to:

Stages of Invoice Review

CounselLink uses a combination of automated reviews and client reviews to identify and flag issues on invoices.

- Validation Review** – All submitted invoices are immediately checked for math and date format errors. If any are detected, error messages display. Resolve the math or date errors and submit the invoice again.
- Billing Guideline Review** – Charge lines are compared to your client’s billing rules. Any violations are noted and either a flag or an adjustment is applied to the charge. Review your client’s billing guidelines to prevent flags and adjustments on future invoices.
- Client Review** - The client reviews all the charge lines, including adjustments and flags added during the Billing Guideline review, and makes charge-level and invoice-level decisions. Once complete, the invoice is approved or rejected by the client. If approved, invoice payments are made.

Note: Some clients allow law firms to review and appeal adjustments on invoices. Other clients reject invoices with charge errors and require submission of a new, corrected invoice. Review your client’s policies to resolve rejected invoices appropriately.

Invoice Statuses

The Billing panel of the Home page shows the number of invoices in the following statuses:

- Action Required for Collaborative Review** - Invoices that were adjusted by the client while using the collaborative review feature. Action is required by the law firm before these invoices can be finalized.

- **Inactive / Incomplete** - Invoices that have been started by the law firm, but have not been sent to the client.
- **On Hold** - Invoices ready to be sent to client, but the invoice cannot be sent because of a pending matter status. Resolve the matter status issue, then submit the invoice.
- **Scheduled** - Some clients require that invoices be sent only during certain time periods. Invoices created prior to a pre-set billing day will be held in this status.
- **Rejected by Billing Guidelines Review** - Invoices sent to the clients and automatically rejected by the corporate client's billing guidelines. Review the billing guidelines before submitting another invoice.
- **Rejected by Client** - Invoices rejected by the client after passing the billing guidelines review. View the invoice or charge-level notes to determine why the invoice was rejected.
- **Adjusted and Approved by Client** - Invoices approved by the client within the last sixty (60) days after adjustments were made. Review the invoice for details about adjustments made.
